ARE YOU ETHOS OR SOLOS?

MES IS THE FIRST MULTI-CHAIN P2E GAME HOSTING BLOCKCHAIN BATTLES, STARTING WITH ETHEREUM VS SOLANA.

PICK A SIDE, YOUR BLOCKCHAIN NEEDS YOU!

ABSTRACT

MES IS THE FIRST MULTI-CHAIN PLAY TO EARN DECENTRALISED APPLICATION BUILT ON ETHEREUM AND SOLANA, PROVIDING USERS OPPORTUNITIES THROUGH UTILISATION OF MES NFTs, VETERAN PROJECT LAUNCHPAD AND THE MES TOKEN (\$MEST).

INTRODUCTION

MES IS A MULTI-CHAIN, COMMUNITY FOCUSED DAPP WITH A PLAYABLE P2E DESKTOP GAME. THE MES COMMUNITY WILL FOCUS ON SUPPORTING VETERANS WHO HAVE SERVED THEIR RESPECTIVE COUNTRIES. SUPPORT CAN OCCUR THROUGH THE LAUNCHPAD, SOCIAL CHANNELS, COMMUNITY EVENTS, OR THROUGH COMPETITIVE TEAMPLAY ON THE MES P2E MOBILE GAME.

Rationale

MES has been created with charitability in mind. **MES** aims to support veterans; through native community launchpad. The launchpad will allow for those who have served, to raise funds for business ventures, or help projects such as prosthetics, therapy etc. Users can decide on which veteran proposals to fund through the **MES DAO**, voting with **\$MEST** tokens. Through the power of community, **MES** can create positive change for those who have served for their countries.

Launchpad

The incoming Web3 age provides the platform for all individuals and teams to succeed, regardless of one's previous experiences and background. **MES** aims to be at the forefront of this new age. The **MES** launchpad is designed to encourage veterans to create blockchain/cryptocurrency focused organisations and projects, providing potential investment opportunities to the **MES** community. Furthermore, veterans can list charitable projects e.g., veteran rehoming, allowing the community to donate to charitable causes.

DAO

Through creation of the **MES** DAO, the project will become entirely community governed. Community members can make and vote for project proposals on the DAO. Furthermore, the **MES** DAO will determine which projects are approved for launchpad listing. Voting for projects with the **MES** governance token **\$MEST**. For governance participation users are required to partake in 'Lock and Load'. Each token locked is one DAO vote.

Lock and Load

For DAO participation users are required to lock **\$MEST** tokens. Upon locking tokens, users can participate in the **MES** DAO. Each token locked provides users with a single DAO vote. Upon locking, there is a 14-day withdrawal period. This set withdrawal period is to ensure DAO stability and prevent governance manipulation.

[Navy Warrant Officer, Solos](#)
[Click for a Sneak Peak](#)

MEST

\$MEST is the governance token of MES. The MES token is an essential component of the MES ecosystem. Through holding \$MEST, users can conduct the following:

Governance

- Vote on & Create Projects via DAO

Launchpad

- Invest in projects listed on the MES Launchpad through \$MEST deposit.

Monetary Transfer

- Send monetary value to other users with \$MEST.

Gameplay Participation

- \$MEST required for game participation.

Locking

- Lock for governance participation.

Trading

- \$MEST is freely tradeable and can be traded by speculators.

Farming

- Users can farm \$MEST to further personal holdings.

LP

- Users can provide Decentralised Exchange liquidity with official Liquidity Pools, earning a percentage of trading / swap fees.

Burning

- 5% of tokens from MES gameplay pools will be burned.

MEST Token Details

Chain	= Ethereum (ERC20)
Planned Wrapped Tokens	= Yes – Solana (wMEST)
Token Supply	= 10,000,000
Initial Supply	= 2,750,000
Token Vesting	= Gradual release over 24 – month period.

MEST Tokenomics

With **MEST** being a decentralised community run project, 80% of the total **MEST** allocation is for the community.

MEST Token Allocation

Subject to potential change

IDO
20%

Airdrop
30%

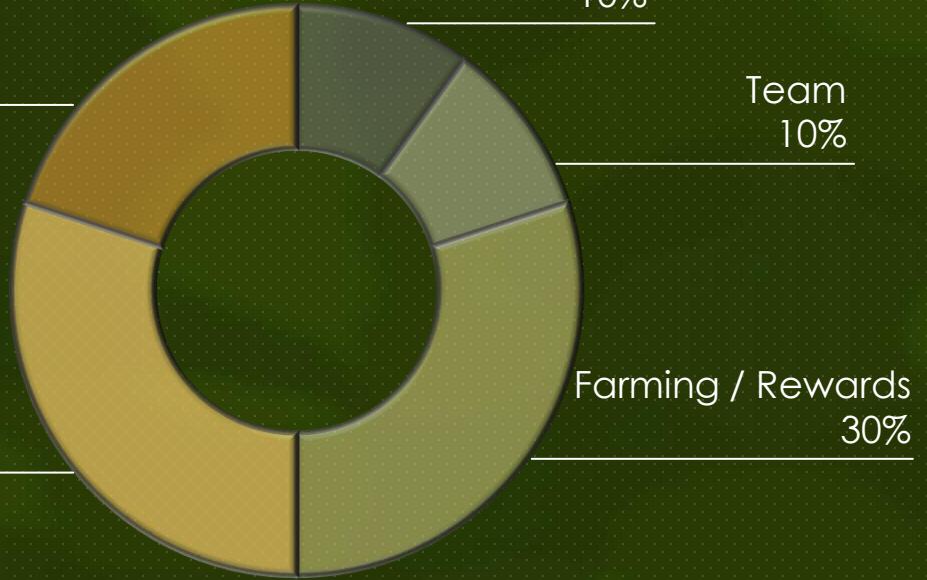

Figure = Token Allocation Visualised

Team	= 10%
Advisors	= 10%
IDO	= 20%
Farming/Rewards	= 30%
Airdrops	= 30%

MEST Token Release

Subject to potential change

MEST has a gradual token release schedule over a 24-month vesting period. Team tokens are locked for 6 months upon launch.

Meta Earth Service (game) – Meta Warfare

Introduction

In the fight for adoption, Earth's blockchains are fighting for world domination. The world is split between two factions: Ethos and Solos. Both factions want to annihilate the other, claiming total control! Select your faction and claim Earth, as there can only be one winner...

Overview

The **MES** game is a war, turn based, strategy, P2E desktop game. Players will fight in teams, representing a part of a faction, attempting to reach world domination. Every faction will be split into three forces, Army, Navy, and Air Force, each controlled by a faction player. Factions are decided by the NFT associated with the player account.

The **MES** game will have two factions.

Click the link below to view trailer.

[Link to Game Trailer](#)

(1) ETHOS Faction

Faction Overview

With the world's economy in a state of collapse, nations across the globe frantically scrambled for any, and all resources they could find, not just within their own territory but encroaching into neighbouring territories, mayhem ensued and eventually the inevitable happened, Global War.

With the War raging on for many years, savaging nations across the globe, untold lives were lost during this bone chilling time in history.

Eventually a stalemate ensued as no one nation were able to gain ground or superiority, through the spirit of negotiation the remaining nations came together on a momentous day and signed a treaty which is written in lore and known as the 'Ethos Accord'. From that day in history, it was agreed that Ethos would reign supreme, uniting all the nations under one banner and one single government for the good of the people.

Supreme Leader Sargon - Announcement

"Deep within our social community" a virus has emerged, this virus and scourge on our very being calls themselves 'Solos'. They seem to believe that they have freewill and that it's the given right of all sentient beings. They have had the audacity to demand that we, the Ethos supreme command allow them this right, that we should change our policies and the way we govern. We cannot and we will not allow this so called 'Solos' faction to prevail. To this end we now find ourselves in a 'state of war' against these upstarts, we urge all of Ethos to 'stand fast' and repel the imitators. Ethos will be victorious.

(1) SOLOS Faction

Faction Overview

Born out of a world lead by an unfair and unjust leadership, a new nation has risen, no longer beholden to a dictatorship, no longer will we be silenced, a new world order and movement has immerged, 'Solos'. We fight for freedom, free speech and freewill which is the God given right of all sentinel beings.

Starting from a whisper, then a word, then an idea, with only our courage and conviction to free ourselves from an oppressive regime. Our reach, our movement our nation has infiltrated theatres across the globe to gain a foothold in key locations in readiness for the uprising.

Having grown from a movement to a nation, with courageous men and women who have 'taken up arms' uniting us all, we know that we have a long and bloody war ahead, but we will prevail and bring Ethos to its knees.

Supreme Leader Rimuc – Announcement

"We shall not yield or lose our way" Our fight continues, we have been successfully acquiring supply chains across the globe to bolster our 'war chest' having also infiltrated banking and financial institutions to decentralise the old-world order. Our forces grow every day, and we will unleash the full force of our military might against our old masters. No longer shall we be beholden to the tyranny, now is our time to RISE, now is the time for Solos to be Victorious.

Game Details

Each user will pay 20 wMEST for game entry. Upon entering the game, paid wMEST will enter the game pool. Users will fight until an eventual winner is declared, controlling 100% of the globe. The winning faction will receive 90% of the pool tokens, split evenly across users within the fighting faction. The remaining 10% of tokens will be split as follows:

5% burned

- Tokens destroyed, removing tokens from the circulating & total supply.

5% faction allocation

- Tokens sent to faction pool, airdropped to faction NFT holders with the most wins at the end of the month.

Game Conclusion

The MES game is an exciting example of what NFTs and cryptocurrencies can offer, while encouraging collaboration within a decentralised sector making MES unique. Furthermore, should users collaborate successfully as a team, they will be financially rewarded.

MES NFTs

Overview

The MES NFT collection will be a set of 8,888 generative 3D NFTs on multiple blockchains. NFTs will be on the following blockchains:

Ethereum

- 4,444 MES NFT allocation

Solana

- 4,444 MES NFT allocation

NFTs are on different blockchains due to the nature of the MES game. With ownership of MES NFTs, users will receive the following benefits:

Ability to play as the following factions (dependent on NFT purchased)

- Solos
- Ethos

Ability to play as the following force (dependent on NFT purchased)

- Airforce
- Navy
- Army

Airforce Corporal, Ethos

Meta Earth Service – Premium Pass NFT

By owning the **MES** - Premium Pass you'll gain access to the 3v3 Play 2 Earn game mode for Meta Warfare. This mode is also available for any MES 'Genesis' NFT holders; however, the additional benefit is that the **MES** - Premium Pass will allow you to rent out your pass to other players who may not own a **MES** 'Genesis' NFT but want to earn playing the 3v3 mode. In turn providing a split of all tokens earnt while playing with the rented pass.

\$MEST Airdrops

- Airdrops of **\$MEST** tokens to the user's wallet.
- Airdrop amounts are dependent on rank of military personnel in NFT.
- Automatic launchpad whitelist.
- All NFT holders will be able to deposit capital to projects on the **MES** launchpad.

Winners drop

- Monthly airdrop of **\$MEST** tokens to the faction with the most wins.

Rarity

MES NFTs will vary significantly in rarity. The NFTs will be split 50/50 among the two factions. In the tables below are the rarity levels for each force as well as the Chief of Staff Legendary Characters:

AIRFORCE	2960	1480	1480
STAFF OFFICERS	TOTAL FORCE	ETHOS	Solos
AIR CHIEF MARSHAL	20	10	10
AIR GENERAL MARSHAL	34	17	17
AIR MARSHAL	44	22	22

OTHER RANKS			
NAVY WARRANT OFFICER	230	115	115
NAVY BOAT SERGEANT	260	130	130
NAVY SERGEANT	280	140	140
NAVY CORPORAL	310	155	155
NAVY LANCE CORPORAL	320	160	160
NAVY BOATMAN	580	290	290

Artistic

The MES NFTs presents an image of an imposing, three-dimensional military personnel with varying ranks, rotating in front of a range of digital backgrounds. Aiming to recreate classical video-game artwork of the mid-late 2000's, the image creates the same formal-rigidity of military personnel in real life, thus transporting the viewer to the centre of a fictional war scenario.

MES Roadmap

1 – CLAUDIUS

- MES Premium Pass Free Mint Solos
- MES Genesis Whitelist Mint Solos
- MES Genesis Public Mint Solos
- MES Premium Pass Free Mint Ethos
- MES Genesis Whitelist Mint Ethos
- MES Genesis Public Mint Ethos
- Whitepaper Release
- MES NFT Minting Live
- Public \$MEST IDO Sale Begins
- Lock and Load Beta Phase (Staking)
- Airdrop NFT Giveaways
- Coingecko Listing
- CoinmarketCap Listing
- Lock and Load Public Launch (Staking)

2 – TIBERIUS

- \$MES Token Wrapping
- DAO Release
- Official \$MEST Liquidity DEX Pools
- Listing on Centralised Exchanges
- Project Audit
- Official \$MEST Farms Release

3 – OCTAVIAN

- Veteran Launchpad Release
- Meta Warfare 'Private Beta' Release
- IRL Community Meetups
- Meta Warfare 'Public Beta' Release

4 – CESAR

- Meta Warfare 'Full Release'
- Roadmap Targets set by DAO

Conclusion

MES is a decentralised, community driven project, led by those within the MES community. With NFTs, the MES game, native launchpad, and \$MEST, we believe that MES has the potential to become a major success, spreading positivity across our community, including those who have served/serving for their country.
